## PELVIC PAIN SOLVING THE PUZZLE

SHIFT YOUR SURGICAL AMBITIONS TO **SURGICAL ACTION**

For its fourth edition, ENDO Dubai is pleased to invite colorectal surgeons.

Pelvic Pain is an important cause of morbidity among women. However, it is often a challenge for clinicians. In 2019, ENDO Dubai, a leading event in the field of minimally invasive gynecologic surgery, will focus on this critical topic and as such extend its focus to colorectal surgery. Gynecologic and Colorectal Surgeons both play an important role in addressing Pelvic Pain and close collaboration is often required to deliver better patient outcomes.

ENDO Dubai 2019 will thus explore various strategies and techniques to manage Pelvic Pain with a dedicated track for colorectal surgeons. With a mix of expert panels, tutorials, hands-on sessions and live surgery, ENDO Dubai will help you stay ahead of the curve and continue to improve your surgical practice.
